# SAFIR™

## A versatile tent – for passionate outdoor lovers

Safir is used and loved by professionals in the most extreme conditions. A tent you can rely on 100 percent – on ice-fields and glaciers, in storm-force gales or blazing heat. Safir is perhaps the world's most versatile tent, perfect for extreme expeditions, challenging trekking and a multitude of other outdoor activities. It's been developed for people who need maximum performance and flexibility, but its outstanding comfort and manageability make it popular for families too. Safir is perfect for family hikes, modern glamping and roadtrips.

# Key features

1

**Large smoke opening with mosquito-net ceiling**  
Ensures efficient ventilation on warm days and smoke clearance when using a fire.

2

**Tent fabrics**  
Best quality fabrics that puts Safir in a class of its own. Safir is available in three model variants with different fabrics: cotton/polyester (cp), eco and light.

3

**Central pole**  
Five-piece hardened aluminium alloy pole.

4

**Door fitted with mosquito net**  
Improves ventilation. Diagonal zip with rain flap prevents water penetration.

5

**Storm cords**  
Pre-tied and fitted with holders, with reflecting threads woven into the cords. Storm cord holders allow cords to be in place ready for use, without tangling.

6

**Reinforced edging**  
50 centimetres high, for better wear resistance. Exposed parts of the tent walls are strengthened with strain-relief reinforcements.

7

**Ground straps**  
Strong, adjustable ground straps are used instead of cords to tension the Nordic tipi.

8

**Chimney opening**  
Versatile feature that allows the easy fitting of a stove.

9

**In-Tent Vent™ system**  
Allows maximum control of the tent's indoor climate using patented technology.

10

**Accessory sleeve**  
Built-in feature for attaching porch or canopy.

11

**Safety toggles**  
Enable door to be closed even if the zip has been damaged.

12

**Three large air intakes**  
Adjustable from inside the tent, each fitted with a mosquito net.

# Fabrics

## SAFIR cp – Cotpolmex Pro

Very strong and well-ventilating cotton/polyester fabric which gives an indoor climate far superior to that of a tent made of any kind of coated fabric. The beige-brown colour creates a warm, pleasant atmosphere in the Nordic tipi. The fabric is denser and more resistant to sunlight as regards strength and colour fastness than all corresponding fabrics tested. It has also better form stability and water repellency properties. With its high-class attributes, attractive appearance and natural feel, this is, as far as we know, the world's best cotton/polyester outer tent fabric. Mildew prevention. Approximately 285 g/m<sup>2</sup>.

## SAFIR eco – Environmex Pro

Unique and sustainable fabric with a blend of hemp, organic cotton and recycled polyester. A good choice if you want to lower your carbon footprint, but still take advantage of outstanding breathability. Approximately 285 g/m<sup>2</sup>.

## SAFIR light – Traillix Pro

Very strong, non-ventilating, green, lightweight fabric of high tenacity polyamide. The fabric is waterproof, ripstop reinforced, double-sided silicone-coated and UV-protected. We have allowed this fabric to be slightly heavier in order to make it even stronger. Approximately 80 g/m<sup>2</sup>.

### Included

Double ventilator cap fitted with net, three air intakes with net, door with net, mosquito-net ceiling, central pole, storm cords, storm cord holders, measuring tape, mounting cross, two inside pockets, compression bag and advanced tent pegs.

### Floors and inner tents as accessories

We want our Nordic tipis to be as flexible as possible. That is why you can choose to supplement the outer tent with the different types of floors or inner tents that will best fit your needs. Visit [tentipi.com](http://tentipi.com)

### More accessories

Stove, fire box, canopy, porch, drying rail, reindeer hide etc. Visit [tentipi.com](http://tentipi.com)

Safir 5 light with  
Inner tent 5 Pro.

## Why choose a Nordic tipi from Tentipi?

### Easy to pitch in only a few minutes

Measure out eight pegs in a circle, attach the tent canvas and then raise the central pole. With our standardised method, you can't go wrong.

### You can use a fire or stove inside

Whether you prefer an open fire or a stove, our Nordic tipis' unique design enables fire-making for warmth and cosiness. Increases safety in cold conditions.

### Outstanding ventilation

Keeps you comfortable whether you camp in the Arctic or under a blazing sun in the desert. Mosquito-netted openings let you ventilate out hot air and smoke without getting insects in the tent.

### Very stable in strong winds

The symmetrical shape and low central gravity make our Nordic tipis more secure in high and gusty winds than most other tent designs.

### Space for socialising and plenty of headroom

Friends and family can socialise around the fire. You can get dressed in the morning without crawling around on the floor.

### Modular and flexible

You can use the outer tent on its own or add an optional floor or inner tent based on your needs. A Nordic tipi from Tentipi is comfortable, safe and highly versatile, with a low weight in relation to capacity.
